#### IV. Explanation

The Chicago Park District continues its Community Engagement Guidelines which were introduced in 2022. The Guidelines employ a community engagement plan to keep neighboring residences, businesses and other stakeholders abreast of planned event operations. As part of their community engagement organizers are also encouraged to bring benefits to the community by hiring local residents and securing local vendors. This is consistent with actions taken by event organizers over the years who provide financial support to local parks and schools, organize park clean ups, host holiday food and toy drives and contribute to park capital improvements.

Effective November 16, 2022, Chapter VII of the Chicago Park District Code requires the Board to give provisional approval for permitted special events with an attendance of 10,000 or more per day before a Special Event Permit can be issued. Such event organizers must submit additional information to the Chicago Park District regarding their community engagement plans.

Bank of America Shamrock Shuffle, and Bank of America Chicago Marathon had an existing agreement in effect prior to the adoption of amendment to Chapter VII of the Chicago Park District Code. The Board is receiving a presentation on these permits for information and transparency purposes as part of the event permit process.

The events brought before the Board of Commissioners today are one-day events.

Special Events are held throughout the city in all sizes and types and offer many benefits, including:

- · Revenues support parks and programs citywide
- · Subsidizes and supports Park mission to maintain low or free program fees
- · Increases access of special event option to community residents
- · Activation of parks enhances safety, brings community together
- Enhance city vibrancy by bringing residents and visitors to communities
