### **IV. Explanation**

This project is being completed and paid for under a Cooperative Agreement with the United States Environmental Protection Agency. All work will be completed in accordance with our USEPA approved work plan.

This project is for Phase 2 of the required thorium screening and remediation at DuSable Park. The Phase 2 thorium screening includes only the perimeter forty (40) feet from the existing seawall. The interior of the site was completed in 2017 as part of the Phase 1 thorium screening and remediation.

Due to the age of the existing seawall, a new seawall will needed to be installed in order to screen the fill

material around the perimeter of the site and immediately adjacent to the seawall. This seawall replacement and site exterior screening and remediation are expected to be completed by the end of 2019.

At the conclusion of this project, the environmental remediation of the property will be complete.

## **V. General Conditions**

1) *Conflicts*: The Agreement shall not be legally binding on the Chicago Park District if entered into in violation of the provisions of 50 ILCS 105, the Public Officer Prohibited Activities Act.

2) *Ethics*: The Chicago Park District's Ethics Code, Chapter III of the Code of the Chicago Park District, shall be incorporated into and made part of the agreement.

3) *Contingent Liability*: Any agreement lawfully entered into for a period of more than one year shall be executory only for the amounts for which the Park District may become liable in succeeding fiscal years pursuant to Section 17(i) of the Chicago Park District Act, 70 ILCS 1505/17(i). All agreements authorized herein shall contain a clause that any expenditure beyond the current fiscal year is subject to appropriation in the subsequent fiscal year budget.

4) *Economic Disclosure Statement ("EDS")*: The contractor has submitted a full and complete EDS.
